

Dear Andrew,

I wanted to take the time to personally “Thank You”, and your dedicated Team at Data Analyzers.

You met and adhered to the following commitments:

- Timeline
- Recoverability
- Cost
- Follow-Up

I recognize that you are a smaller organization but your expertise and quality are outstanding. I hope that we do not need your services again in the future but if an issue occurs Data Analyzers will be our first call.

All the Best,

Barham
