

I just wanted to take a moment to thank you guys very much. Data Analyzers was truly a God send. My main host computer was struck by lightning and took out my hard drive I had not backed my QuickBooks file up and had lost 7 years of data I paid a local company and they could not find my file I then found Data Analyzers they worked very hard it took a little time because my hard drive was in such shambles but they retrieved by ENTIRE file. I am so thankful to them I do not know what I would have done without them. They were very professional and patient with me. They even took the time to help me load it onto my computer. I would recommend Data Analyzers to everyone.
